Reasons for Allowance

1.

Applicant argues that the kit, according to how it is claimed, could not be shown by Watanabe for the reason that in Watanabe (EP 0930774 A2), the kit is provided over a network. Applicant's argument with respect to this point is not persuasive in that a kit could be provided over a network and utilized by a user who is remote with respect to the network.

The examiner contends that the registration card, contrary to applicant's argument is precisely and specifically disclosed at paragraph 14 of Watanabe

The examiner contends that the computer software program is specifically disclosed at paragraph 44 of Watanabe, contrary to applicant's argument.

The image retaining means could be the computer or camera as disclosed by Watanabe.

However, upon closer view, the examiner agrees, with applicant that Watanabe does not specifically teach as claimed, "... unique ID which has been forwarded to a database of a network photo-service provider where images obtained later from said image retaining device can be stored." The examiner agrees with the applicant's arguments presented in the second and third full paragraphs of page 4.
